

Tony Colin

Candidate for Director

I am an original member of the 1389 part of the chapter. I joined in 2007 when I was hired by Morey Airplane Company.

I have been a member of EAA since around the same time.

I have been in the Air National Guard since 2004 and currently work in Madison at the 115th Fighter wing as a crew chief 7 level on the new F-35. I also am the first sergeant for the medical group on our base and additionally serve as a co NCOIC of the base Honor Guard.

I have flown with my dad as far back as my memory carries me. And have been engaged in aviation ever since. I was finally able to get to Black Hawk Tech in 2003. I graduated at the end of 2006 with an associate in applied sciences, and my A&P certificate, and was immediately hired by Morey in January 2007.

I am a go to for many at the base in Madison for general aviation questions, and how to get involved at EAA every year.

I was very involved in many of the fly-in breakfasts at Morey, to include cleaning the hangar, helping hang the tarps, and marshaling aircraft as they come and go.

Most years I am working up at EAA during the airshow in the main square assisting the team moving aircraft around daily. As an A&P I have also assisted many aircraft owners over the years when things came up at the show, to resolve issues.

I look forward to bringing my diverse background to the group in a larger capacity and contributing to the key mission of the EAA and that is to grow participation in aviation by promoting the "Spirit of Aviation"

I aim to: Inspire youth through the young eagle's program, provide resources to those from EAA accessible programs. I wish to advocate for organizational activities on behalf of all our members.

Thank you for this opportunity to share a small bio on myself for a cliff note on who I am, and the chance to request to run for the seat of Director.
